Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 March 2009.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 9 January 2009 has been entered. Claims 6-17 are pending in the application. Claims 1-5 have been canceled.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Objections

2. Claims 10, 11, 16, and 17 are objected to because of the following:

The claims add perforations to a closed parent claim. The transitional phrase "consisting of" excludes any element, step, or ingredient not specified in the claim. *In re Gray*, 53 F.2d 520, 11 USPQ 255 (CCPA 1931). A claim which depends from a claim which "consists of" the recited elements or steps cannot add an element or step. See MPEP 2111.03

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 6-9 and 12-15 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claims 6 and 12 are closed and do not include any cuts, score lines, or perforations around the tabs. The invention of the scope presented in claims 6 and 12 would not be functional since the retained articles would not be accessible without some sort of separation around the tab portions. To examine the claims on their merits, the perforations recited in claims 10 and 16 are presumed to be present in the scope of claims 6 and 12, respectively.

As applicant has clearly intended the scope of the claim to be closed, no reasonable assumption can be made, with respect to claim enablement that might allow the claims to be examined on their merits, since any assumption would require the presentation of additional structures to the claims, which is contrary to the clear intentions of the applicant.

Double Patenting

4. Applicant is advised that should claim 7 be found allowable, claim 12 will be objected to under 37 CFR 1.75 as being a substantial duplicate thereof. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

Response to Arguments

5. Applicant's arguments with respect to claims 6-17 have been considered but are moot in view of the new ground(s) of rejection. Should applicant include the perforations within the independent claims, the reference Moser et al would appear to be applicable to such an arrangement.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. In Figures 1-4, Moser et al (US 3,941,248) discloses a package consisting of a tray 1, compartments 3, sheet 2, perforations 6/8, and tabs (portions between perforations 8).
